

# DCL Locking Systems

Bradley's new, easy to operate locking systems are ideal for securing **Lenox® Lockers** in wet and chlorinated environments

Perfect for locker areas in swim and fitness facilities, spas, water and amusement parks, resorts and more

Digital combination lock option

Water and corrosion resistant

Convenient – no more lost keys

Celebrating the way the world washes.

## Convenient & Versatile

Public user mode allows patrons to set 4-digit PIN and provides fast, convenient keyless access. The PIN automatically resets after each use. LED indicator lights let patrons know they are using the lock correctly and let maintenance staff know when the lock needs attention.
