

# WASHBAR® AS A STAND ALONE

The elegance and simplicity of the all-in-one WashBar® can now be used with the basin or countertop of your choice.

Commercial Washrooms. Brought to Life.

# Take the WashBar Anywhere

The WashBar gives designers the flexibility they want and all the benefits. Completely touch-free activation, eliminating the cost and mess of paper towels, convenience and safety by keeping water off the floor, a clutter-free aesthetic, and now available to use on a basin of your choice in addition to Bradley's Verge® LVQ quartz basin and OmniDeck™ 5010 solid surface basin.

## ADVANTAGES OF THE WASHBAR:

- Touch-free soap, water, and hand dryer
- Icons and LED lights to visually orient users
- Now available with Top Fill Multi-Feed Soap System
- Smart sensor technology eliminates false activations
- Gallon soap capacity to reduce the number of replacements
- Captures soap and water activations for maintenance planning
- Cleaning mode for easy cleaning
- Available in 6 finishes and 2 models

## WashBar Kit includes

- 1 WashBar Model WB1 or WB2
- 2 Top Fill Multi-Feed or Below Fill Soap System
- 3 Brushless Hand Dryer Motor
- 4 Master Controller

## Basin Requirements

- Basin must be a trough sink with a ramp profile to help direct and dissipate air and water from the hand dryer away from the user.
- A flat-bottomed basin or a basin with curved edges are not recommended due to direction of air flow and water spray toward the user.
- Basins must include a covered drain strainer to minimize interaction between the air stream and draining rinse water.
- WashBar is compatible with solid surface, polished or matte quartz, marble, concrete, or granite. WashBar is not compatible with highly reflective, high gloss, or high polish surfaces such as porcelain or stainless steel.

For additional information on recommended parameters, see [technical data](#).
